The course is aligned with *A Guide to the Project Management Body of Knowledge (PMBOK® Guide)* - Sixth Edition and the *Agile Practice Guide 2017*. While the *PMBOK® Guide* has not been changed, the PMI® has introduced a higher content of agile and hybrid questions on the exam.

The new exam is structured along three domains with the proportion of questions as follows:

✓ People 42%    ✓ Process 50%    ✓ Business Environment 8%

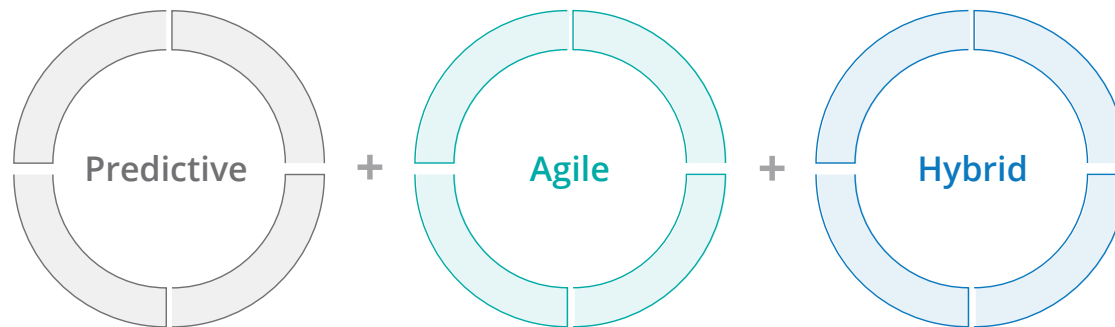

*continued on next page...*

# PMP® Exam 2021: What You Need to Know

---

The sixth edition of the *PMBOK® Guide* introduced a higher level of consideration for agile practices, and this is continued in the new exam format.

Rather than concentrating on a predictive (often called “traditional” or “conventional”) approach to project management, throughout all 3 domains, attention and value will be given to predictive and agile approaches, and to a hybrid of both.

- ✓ The programme includes predictive, agile and hybrid project management approaches found across the three domains.
- ✓ 50% of the exam is expected to be based on agile and hybrid approaches and 50% based on predictive or plan based approaches.
