Welcome to PRINCE2® Practitioner

PRINCE2® Practitioner training takes your understanding of the PRINCE2® framework to the next level, so that you can apply and tailor PRINCE2® to address the needs and problems of a given project scenario. Your ability to do this will be examined by use of official AXELOS case studies.

Course Objectives

By the end of the PRINCE2® Practitioner course, you will be confident in applying and tailoring PRINCE2® methodology. You will:

- Understand the relationships between the roles, management products, principles, themes, techniques and processes.
- Be able to apply the principles, themes and processes to a case study project (official AXELOS approved case study is used).
- Be prepared to sit your PRINCE2® Practitioner Exam.

Our PRINCE2® Practitioner Approach

Our 2-day PRINCE2® Practitioner course is specifically designed for those who have recently achieved the PRINCE2® Foundation certification based on the *“Managing Successful Projects with PRINCE2® publication, Sixth Edition, AXELOS Limited, Copyright 2017”*, and would like to progress to Practitioner level.

If you have not already achieved PRINCE2® Foundation level, we recommend our PRINCE2® Foundation & Practitioner Course. This course enables you to achieve both Foundation and Practitioner certifications.
