About This Workshop

This is a practical Agile Project Management workshop, which focuses on equipping participants with accessible, adaptable Agile skills.

The aim of the workshop is that each participant will leave feeling confident in their ability to apply the techniques to projects in your working environment.

Is Agile Right for Your Team?

It's essential to choose the right project management approach to suit your team's environment.

If you're searching for the best methodology for your team, take a look at the statements on [page 7](#). If one or more of these statements applies to you and your team, agile could be your perfect fit.

Want to Attend as an Individual?

We also run public and self-led online Agile Courses.

About This Workshop

The format of this programme is “in-company”, meaning that we come to your premises or deliver live virtual training exclusively to your team.

In-company training gives you date flexibility - you choose the dates that work best for your schedule. It also enables you to focus on any particular problems you would like to work on solving, as we can tailor the programme content to focus on your business needs.

Delivery Style

- ✓ Practical workshop approach.
- ✓ Facilitated group discussions.
- ✓ Individual and group exercises.
- ✓ Practical application of learning to challenges within your organisation.
- ✓ We provide comprehensive course materials.
- ✓ Training is delivered by an experienced agile project management trainer.
- ✓ Create action plans for continuing effective agile project management.

Delivery Style

How In-Company Training Works

When you get in touch with us about in-company training - either by phone or by requesting a quotation using the button on this page - our expert training consultants will work with you to find the best training solution for your needs.

We will create a programme that addresses the issues and goals at the top of your list, and choose a training delivery method and dates that suits you best.

Why In-Company?

- ✔ **Tailored for Your Team** - While still adhering to the course syllabus, we can take your business and any challenges you are facing into account when delivering the course. We will make the training delivery relevant to your team.
- ✔ **You Choose the Delivery Style** - We can deliver this training as an in-person, classroom style course (where we come to your location), or by live, virtual classroom training (learn more on the next page).
- ✔ **Flexibility** - In-company training gives you the ability to schedule training at a time that works best for your schedule. It removes the inconvenience of having to take someone out of their role for training at a busy time.

Delivery Style: Live Virtual Training

Virtual training enables participants to connect to live, trainer-led sessions from wherever they are located.

It's easy to connect and they will gain the benefits of a classroom style of training while enjoying the convenience of learning at home.

How Virtual Training Works

In advance of training, we will send each participant the information and link they need to join the training.

To connect with our live training, participants will need a steady internet connection and a device with a web-camera, speakers, and microphone. Most home internet connections work perfectly for live virtual training. These days, almost all smartphones, computers, and tablets have built-in web cameras, speakers, and microphones.

Our training consultants will make sure everyone has guidelines on how to get connected. It's an easy, user-friendly process.

Why Virtual?

- ✔ **Learn from Home** - This is an ideal solution for teams that work remotely. They can connect with real-time training sessions from wherever they are currently based.
- ✔ **Delivered by Experts** - By choosing our live virtual training, your team will learn from subject matter experts. They will also benefit from the ability to ask questions and gain advice from our trainers.
- ✔ **Group Training** - This style of training enables participants to interact virtually with their team. Via our online platform, they will be able to take part in group discussions and exercises without leaving home.
- ✔ **Focused Learning Environment** - One of the key advantages of an in-person classroom style training is the focused learning environment. Live, trainer-led virtual training also provides this high-impact format.

Is Agile Right for Your Team?

- ① "I work on projects where the requirements can - and do - change frequently."
- ① "I need a flexible project management approach."
- ① "I want to deliver value to my stakeholders / customers as quickly as possible."
- ① "I'm seeking greater visibility at every stage of a project."
- ① "We need better communication within our project management team, and with our stakeholders."
- ① "I need to be able to react quickly to any changes or obstacles that arise."
- ① "'Bottlenecks' are a productivity block in my working environment."
- ① "I want greater control over a project's time and cost management."
- ① "More clearly-defined roles would greatly increase the productivity of my project team."

What Are The Benefits?

✓ A Practical, Relevant Agile Toolkit

This Agile Project Management course is designed to give your team skills to contribute effectively to agile projects.

✓ Solid, Versatile Skills

Agile is fast becoming one of the most popular project management methodologies available.

The skills your team will gain during this course will add to their competence and versatility as project managers.

✓ Increased Productivity and Profitability

Agile methods applied correctly will always yield higher productivity, which in turn leads to better profitability.

✓ Options for Certification

We provide several options for international certification, depending on your team's experience with Agile.

We will be delighted advise on this during the planning stage for your workshop.
