About This Workshop

Reduce Waste - Improve Quality - Implement Savings

Lean methodologies focus on reducing waste, enabling you to increase productivity and profitability within your organisation.

This 1-day workshop is designed to introduce your team to the core principles of lean, and demonstrate how lean methodologies can be implemented effectively within an organisation.

To maximise the impact of this programme, we customise the workshop content to centre around your business needs.

We incorporate processes, goals, and challenges that are relevant to you and your team, so that each participant will leave with a confident understanding of how to use lean for solving problems and reducing waste in your organisation.

In-Company Training

This course is only available for in-company bookings.

“In-company” is a style of training whereby we deliver the programme at your premises, exclusively to your team, and on a date chosen by you.

You can learn more about the delivery style of this workshop on Page 6.

Key Benefits of Implementing Lean Principles

When Lean is implemented correctly, there are so many benefits!

To begin with, Lean helps you identify and eliminate waste from your day-to-day processes.

This will contribute to cutting your overall costs, resulting in savings.

Correctly applied, Lean also boosts efficiency and productivity which leads to increased profits.

“Sounds simple and practical. Why do I need training?”

While the concept behind Lean is very simple and seems like common sense, implementing it takes skill and a thorough knowledge of the different systems and techniques involved.

Training will give you both a theoretical and practical understanding, along with a level of confidence in your capability to implement Lean.

Workshop Content

1 Module 1

- Introduction to Lean
- Introduction to Problem Solving
- The 8 Wastes

2 Module 2

- Selecting a problem to solve
- Constructing a Problem Statement

Tailored for Your Needs

This is an example of our basic Lean Problem Solving workshop content. When we deliver this workshop to your team, we can tailor it to focus on your priorities and challenges to optimise the training benefit for your team.

About In-Company Training

In-Company Training

The format of this programme is “in-company”, meaning that we come to your premises, or a venue chosen by you to deliver training exclusively to your team.

In-company training gives you date flexibility - you choose the date for training. It also enables you to focus on any particular problems you would like to work on solving, as we can tailor the programme content to focus on your business needs.

Delivery Style

- Practical workshop approach.
- Facilitated group discussions.
- Individual and group exercises.
- Practical application of learning to challenges within your organisation.
- We provide comprehensive course materials.
- Delivered by an experienced Lean Six Sigma trainer.
