Benefits of Implementing Lean Principles

When Lean is implemented correctly, there are so many benefits.

To begin with, Lean helps you identify and eliminate waste from your day-to-day processes.

This will contribute to cutting your overall costs, resulting in savings. Correctly applied, Lean also boosts efficiency and productivity which leads to increased profits.

“Sounds simple and practical. Why do I need training?”

While the concept behind Lean is very simple and seems like common sense, implementing it takes skill and a thorough knowledge of the different systems and techniques involved.

Training will give you both a theoretical and practical understanding, along with a level of confidence in your capability to implement Lean.

About This Workshop

Reduce Waste - Improve Quality - Implement Savings

Lean methodologies focus on reducing waste, enabling you to increase productivity and profitability within your organisation.

This 1-day workshop is designed to introduce your team to the core principles of Lean, and demonstrate how lean methodologies can be implemented effectively within an organisation.

To maximise the impact of this programme, we customise the workshop content to centre around your business needs.

We incorporate processes, goals, and challenges that are relevant to you and your team, so that each participant will leave with a confident understanding of how to use Lean for solving problems and reducing waste in your organisation.

A Tailored, In-Company Format

This course is only available for in-company training. With an in-company style, we deliver a customised programme exclusively to your team, either online or at your location.

What are the Benefits?

✓ A Structured Approach to Problem Solving

Using Lean methods to address and solve problems within your business is hugely beneficial. It provides you with an effective, consistent process for resolving any current or potential issues that may impact your overall productivity.

✓ Eliminate Waste & Improve Processes

To begin with, Lean helps you identify and eliminate waste from your day-to-day business processes. This helps you to streamline each process and identify areas for improvement.

✓ Save Money

Cutting out waste across the board will lower your costs, and improving processes will reduce mistakes and delays. In turn, this will result in savings for your business.

✓ Increase Profitability & Productivity

When correctly applied, Lean methodologies serve to sustainably increase both your organisation's productivity and profitability.

Delivery Style

This Lean Problem Solving Workshop is available for in-company (sometimes called “in-house” or “on-site”) training.

This means that we deliver training exclusively to your team on a date you choose.

There are many benefits to choosing an in-company style of delivery.

How In-Company Training Works

When you get in touch with us about in-company training - either by phone or by requesting a quotation using the button on this page - our expert training consultants will work with you to find the best training solution for your needs.

We will create a programme that addresses the issues and goals at the top of your list, and choose a training delivery method and dates that suits you best.

Why In-Company?

- ✔ **Tailored for Your Team** - Although the course syllabus must be adhered to, we can take your business and any challenges you are facing into account when delivering the course. We will make the training delivery relevant to your team.
- ✔ **You Choose the Delivery Style** - We can deliver this training as an in-person, classroom style course (where we come to your location), or by live, virtual classroom training (learn more on the next page).
- ✔ **Flexibility** - In-company training gives you the ability to schedule training at a time that works best for your schedule. It removes the inconvenience of having to take someone out of their role for training at a busy time.

Delivery Style: Live Virtual Training

Virtual training enables participants to connect to live, trainer-led sessions from wherever they are located.

It's easy to connect and they will gain the benefits of a classroom style of training while enjoying the convenience of learning at home.

How Virtual Training Works

In advance of training, we will send each participant the information and link they need to join the training.

To connect with our live training, participants will need a steady internet connection and a device with a web-camera, speakers, and microphone. Most home internet connections work perfectly for live virtual training. These days, almost all smartphones, computers, and tablets have built-in web cameras, speakers, and microphones.

Our training consultants will make sure everyone has guidelines on how to get connected. It's an easy, user-friendly process.

Why Virtual?

- ✓ **Learn from Home** - This is an ideal solution for teams that work remotely. They can connect with real-time training sessions from wherever They are currently based.
- ✓ **Delivered by Experts** - By choosing our live virtual training, your team will learn from subject matter experts. They will also benefit from the ability to ask questions and gain advice from our trainers.
- ✓ **Group Training** - This style of training enables participants to interact virtually with their team. Via our online platform, they will be able to take part in group discussions and exercises without leaving home.
- ✓ **Focused Learning Environment** - One of the key advantages of an in-person classroom style training is the focused learning environment. Live, trainer-led virtual training also provides this high-impact format.
