# What is a lean six sigma yellow belt?

---

Lean six sigma yellow belt practitioners are very valuable in any organisation.

They can run smaller process improvement projects, ideal for improving things within their own role or team.

With their solid lean six sigma knowledge, they are strong contributors to any initiative, supporting green and even black belts in their work.

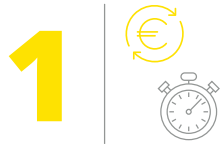

**We recommend yellow belt for those who:**

- ✓ Are curious about lean six sigma, but don't want to jump in with a more extensive course right away.
- ✓ Don't have time to commit to our longer, green belt training.
- ✓ Would like to apply process improvement techniques to another role. For example, it is a great option for project managers expanding their capabilities.
- ✓ Wish to slowly build their lean six sigma knowledge, skills, and certifications over time.

# 3 reasons to achieve a yellow belt certification

---

## 1. It's a time and cost-efficient way to begin making improvements and savings

At just 2 days, yellow belt is our shortest lean six sigma course.

With our practical approach, you will cover a lot of ground during this time, coming away with skills and knowledge that you can begin using immediately.

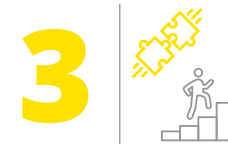

Our yellow belt training price includes your training, supportive course materials, and your certification.

## 2. You will gain your first recognised lean six sigma certification

If you are seeking to improve your CV with a lean six sigma certification, achieving a yellow belt gets you started quickly.

Green and black belt qualifications can take a little longer to achieve. You will gain your yellow belt certificate following day 2 of training.

## 3. It can help with planning your next development steps

We find this course is popular with those who are curious about lean six sigma, but are unsure of how much detail they want to go into with it.

Completing this course provides participants with a strong, versatile foundation in process improvement techniques.

Many of our students want to continue on after yellow belt. In these cases, our green belt and black belt courses are a natural progression.

# Our Approach to Yellow Belt Training

---

Reduce Time & Waste - Improve Quality - Implement Savings

Lean six sigma yellow belt training is the perfect place to start if you want to know how to make real savings and improvements in any working environment.

Our certified, 2-day lean six sigma yellow belt training course is a practical introduction to the methods of lean and six sigma.

It is designed to introduce you to the core principles of lean and demonstrate how lean methodologies can be implemented effectively in your processes.

## Lean Six Sigma Yellow Belt Certification

By attending this workshop, you will understand how to apply lean six sigma principles. Upon successful completion, we will present you with a Professional Development Lean Six Sigma Yellow Belt Certification.

# Our Approach to Yellow Belt Training

---

- This course is very practical. There is a strong focus on equipping participants with a strong foundational knowledge and understanding of lean and six sigma tools using the DMAIC process improvement methodology.
- During the course, you will learn how to apply the DMAIC problem solving framework through discussion and both individual & group exercises.
- You will also complete a short, open book exam which will test your knowledge on the DMAIC methodology.
- Once you have attended the training and successfully completed the exam, we will award you with a Professional Development Lean Six Sigma Yellow Belt Certification.

# Training Objectives

---

Following this 2-day course, you will be able to:

- ✓ Identify the 8 forms of waste.
- ✓ Understand the DMAIC lean six sigma problem solving framework.
- ✓ Use tools, including improvement charters, process maps, root cause analysis, 5 Whys, and decision making PICK charts, to select appropriate measures to improve your processes.
- ✓ Run small-scale process improvement projects using the DMAIC methodology.
- ✓ Contribute actively to green and black belt projects.

## Get Started

You can ask us anything about our lean six sigma yellow belt training by clicking “ask a question” below, or by calling our training consultants on **Freephone 1800 910 810**.

## Who Attends?

---

- ✓ We recommend this course for anyone who is interested in lean six sigma and process improvement.
- ✓ It is most suited to those who have no previous experience with lean six sigma. If you have some experience with process improvement, why not talk to us about our [lean six sigma green belt course](#)?
- ✓ As our yellow belt training is a very short, focused course, it particularly suits those who want to begin learning how to improve business processes using lean six sigma, putting their skills into action fast.
- ✓ The skills you will learn are practical and versatile. They can be used in any sector. This makes our yellow belt training ideal for participants in every industry.

### Need Some Guidance?

If you would like some advice on whether this lean six sigma yellow belt training is the right next step for your career, we would be happy to help. You can call us directly at Freephone 1800 910 810.

# Why Choose Our Approach? (5 Key Benefits)

---

## ✓ Understand Lean Six Sigma Tools and Benefits

This programme introduces participants to essential lean and six sigma tools. It is a great foundation for anyone interested in these cost saving methodologies.

## ✓ Have an Action Plan

Our yellow belt course is designed to be practical and build confidence so that you can begin to apply the learning to your own processes and implementing improvements immediately.

## ✓ Gain Advice from Expert Trainers

Our lean six sigma trainers have extensive experience, both working on lean six sigma initiatives and delivering training. You will benefit from their experience and advice during this course.

## ✓ Achieve a Lean Six Sigma Yellow Belt Certificate

Completing this yellow belt course leads to a Professional Development Lean Six Sigma Yellow Belt Certificate. This is your first step in lean six sigma certification.

With such a rapid popularity growth in for lean six sigma practices, certified practitioners are in demand in every sector.

## ✓ Option for Progression

If, following this training, you want to dive deeper into lean six sigma skills and knowledge, we recommend our [lean six sigma green belt course](#).

This 5-day training and certification is a natural progression from yellow belt training.

We offer progression right up to an advanced [lean six sigma black belt](#) through the American Society for Quality (ASQ).

[About Lean Six Sigma Belts](#)

## What our students say...

---

"Great content and trainer. Thank you so much, looking forward to putting all the tools and techniques into practice and hopefully do a green belt course in the autumn."

- Alena, May 2022

"Delivery style was excellent and paced very well by [the trainer]. He was open to questions all the way through and answered every question comprehensively. I feel what I have learned from this course will benefit me and the company I work for going forward."

- Ken, May 2022

"A good overview and introduction to lean six sigma but also practically oriented and leave with templates to apply right away.

...The course was well prepared and very clear, well-paced with lots of interaction. Discussions were very helpful to bring the course content to life – seeing application practically really stress tests your understanding.

Also a great opportunity to meet people from different backgrounds and seek different understanding... I think the trainer was great and really took account of everyone's background and used it to bring real life examples."

- Jane, August 2022

# Delivery Style - Live Virtual Training

---

Virtual training enables you to connect to live, trainer-led sessions from wherever you are.

It's easy to connect and you'll gain the benefits of a classroom style of training while enjoying the convenience of learning at home.

Our virtual training dates are available for anyone to attend.

## How Virtual Training Works

Once you confirm your place on one of our upcoming virtual training dates, we'll send you the information and link you need to join the training.

To connect with our live training, you will only need a steady internet connection and a device with a web-camera, speakers, & microphone. Most home internet connections work perfectly for virtual training. These days, almost all smartphones, computers, and tablets have built-in web cameras, speakers, and microphones.

Our training consultants will advise you on how to get connected. It's an easy, user-friendly process.

## Why Virtual?

- ✓ **Learn from Home** - This is an ideal solution for anyone who works from home. You can connect with real-time training sessions from wherever you're currently based.
- ✓ **Delivered by Experts** - By choosing our live virtual training, you'll learn from subject matter experts. You'll also benefit from the ability to ask questions and gain advice from our trainers.
- ✓ **Group Training** - This style of training enables you to interact virtually with your fellow trainees. Via our online platform, you'll be able to take part in group discussions and exercises without leaving home.
- ✓ **Focused Learning Environment** - One of the key advantages of an in-person classroom style training is the focused learning environment. Live, trainer-led virtual training also provides this high-impact format.

# In-Company Training

---

We run this Lean Six Sigma Yellow Belt training for in-company (sometimes called “in-house” or “on-site”) training.

This means that we deliver training exclusively to your team on a date you choose. There are many benefits to choosing an in-company style of delivery.

## How In-Company Training Works

When you get in touch with us about in-company training - either by phone or by requesting a quotation using the button on this page - our expert training consultants will work with you to find the best training solution for your needs.

We will create a programme that addresses the issues and goals at the top of your list, and choose a training delivery method and dates that suits you best.

## Why In-Company?

- ✓ **Tailored for Your Team** - We can take your business and any challenges you are facing into account when delivering the course. We will make the training delivery relevant to your team.
- ✓ **You Choose the Delivery Style** - We can deliver this training as an in-person, classroom style course (where we come to your location), or by live, virtual classroom training.
- ✓ **Flexibility** - In-company training gives you the ability to schedule training at a time that works best for your schedule. It removes the inconvenience of having to take someone out of their role for training at a busy time.
