About This Course

Reduce Time & Waste - Improve Quality - Implement Savings

Lean Six Sigma Yellow Belt Training is the perfect place to start if you want to know how to make real savings and improvements in any working environment.

Our certified, 2-day Lean Six Sigma Yellow Belt training course is a practical introduction to the methods of Lean and Six Sigma.

It is designed to introduce you to the core principles of Lean and demonstrate how Lean methodologies can be implemented effectively in your processes.

Lean Six Sigma Yellow Belt Certification

By attending this workshop, you will understand how to apply Lean Six Sigma principles. Upon successful completion, we will present you with a Professional Development Lean Six Sigma Yellow Belt Certification.

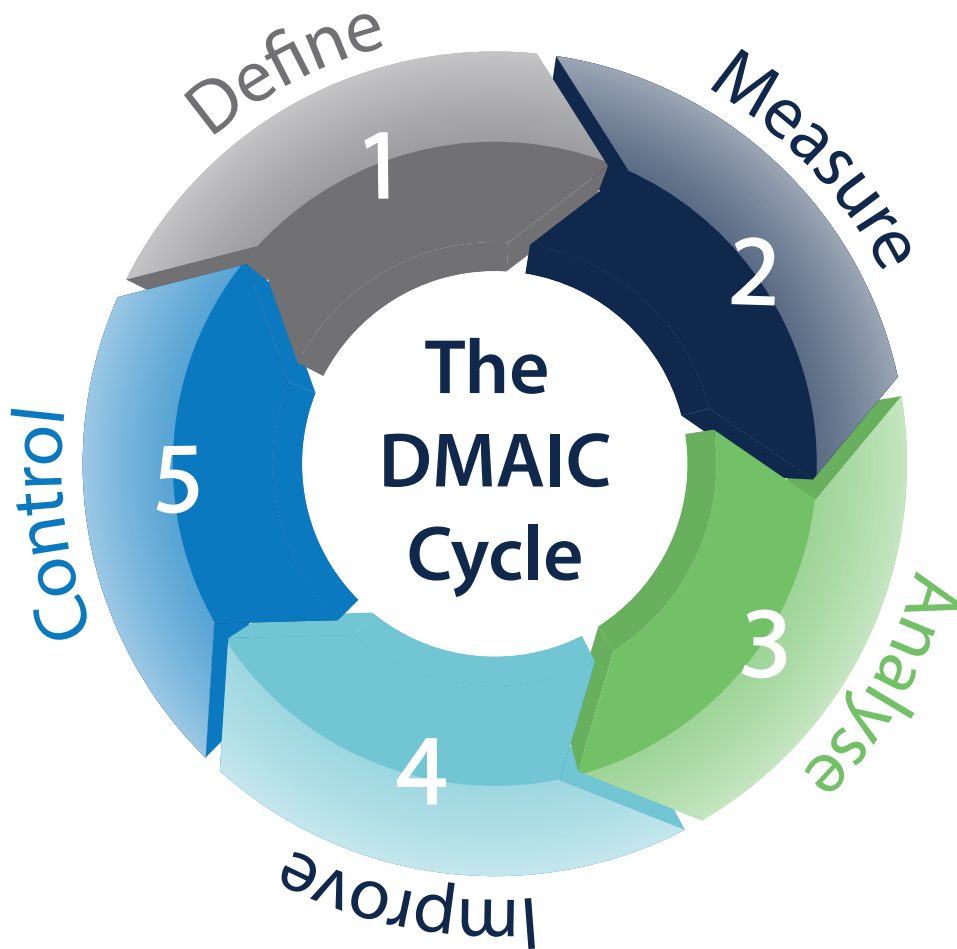

Who Attends?

- ✓ We recommend this course for anyone who is interested in Lean Six Sigma and process improvement.
- ✓ It is most suited to those who have no previous experience with Lean Six Sigma. If you have some experience with process improvement, why not talk to us about our [Lean Six Sigma Green Belt course?](#)
- ✓ As our Yellow Belt training is a very short, focused course, it particularly suits those who want to begin learning how to improve business processes using Lean Six Sigma, putting their skills into action fast.
- ✓ The skills you'll learn are practical and versatile. They can be used in any sector. This makes our Yellow Belt training ideal for participants in every industry.

Need Some Guidance?

If you would like some advice on whether this Lean Six Sigma Yellow Belt training is the right next step for your career, we would be happy to help. You can call us directly at Freephone 1800 910 810.

How We Deliver This Course

- This course is very practical. There is a strong focus on equipping participants with a strong foundational knowledge and understanding of Lean and Six Sigma tools using the DMAIC process improvement methodology.
- During the course, you will learn how to apply the DMAIC problem solving framework through discussion, and individual & group exercises.
- You will also complete a short, open book exam which will test your knowledge on the DMAIC methodology.
- Once you have attended the training and successfully completed the exam, we will award you with a Professional Development Lean Six Sigma Yellow Belt Certification.

Training Benefits

✔ Understand Lean Six Sigma Tools and Benefits

This programme introduces participants to essential Lean and Six Sigma tools. It is a great foundation for anyone interested in these cost saving methodologies.

✔ Have an Action Plan

Our Yellow Belt course is designed to be practical and build confidence so that you can begin to apply the learning to your own processes and implementing improvements immediately.

✔ Gain Advice from Expert Trainers

Our Lean Six Sigma trainers have extensive experience, both working on Lean Six Sigma initiatives and delivering training. You'll benefit from their experience and advice during this course.

✔ Achieve a Lean Six Sigma Yellow Belt Certificate

This Yellow Belt course leads to a Professional Development Lean Six Sigma Yellow Belt Certificate, your first step in Lean Six Sigma certification.

With such a rapid growth in popularity for Lean Six Sigma practices, certified practitioners are in demand in every sector.

✔ Option for Progression

If, following this training, you want to dive deeper into Lean Six Sigma skills and knowledge, we recommend our [Lean Six Sigma Green Belt Course](#).

This 5-day training and certification is a natural progression from Yellow Belt training.

We offer progression right up to an advanced [Lean Six Sigma Black Belt](#) through the International Association for Six Sigma Certification (IASSC).

Training Objectives

Following this 2-day course, you will be able to:

- ✓ Identify the 8 forms of waste.
- ✓ Understand the DMAIC Lean Six Sigma Problem Solving Framework.
- ✓ Use tools, including improvement charters, process maps, root cause analysis, 5 Whys, and decision making PICK charts, to select appropriate measures to improve your processes.
- ✓ Run small-scale process improvement projects using the DMAIC methodology.
- ✓ Contribute actively to Green and Black Belt projects.

Train & Certify Your Team

We also offer this Lean Six Sigma Yellow Belt as an in-company programme, where we deliver the training exclusively to your team, at your location.

Here are some of the benefits you'll gain by choosing an in-company style of training delivery:

Relevance

When delivering this Lean Six Sigma Yellow Belt Training to your team, we can tailor the content so that your team can work on a process you would like to improve.

Consistency

You ensure that the whole team receives training in the same approaches and terminology. This contributes to the smooth running of processes, enabling your teams to be more efficient.

Convenience

By opting for an in-company format, you'll eliminate travel costs for your team, minimising any disruption to productivity. You also gain the option to choose the dates that suit your calendar best.

Value

The pricing structure we offer for this style of training works out more cost-efficient than public courses, in cases where a number of people require training.
